

Masters programmes in other Schools that are using Computer Science modules

	MRes Computational Neuroscience – Cognitive Robotics	MSc Digital Entrepreneurship	MSc Financial Engineering	MSc Mathematics & Computation in Biology & Medicine
Computational Modelling with MATLAB (06 23836)	---		---	compulsory
Computational Tools for Modelling and Analysis (06 22313) (PSIBS module)	---		---	compulsory
Evolutionary Computation (06 02411)	---		---	optional
First Semester Mini Project (06 07953)	---	compulsory	---	---
Fundamentals: Databases (06 21923)	---		optional	---
Fundamentals: Software Engineering (06 21936)	---		optional	---
Imaging and Image Analysis (06 22312) (PSIBS module)	---		---	compulsory
Intelligent Data Analysis (Extended) (06 20233)	---		optional	optional
Intelligent Robotics (Extended) (06 15267)	optional		---	---
Introduction to Neural Computation (06 12412)	optional			---
Project – Advanced MSc (06 02637)	---	optional	---	---
Second Semester Mini Project (06 07954)	---	compulsory	---	---
Software Workshop 06 06994	---	---	compulsory	---

Lead Schools:

MRes Computational Neuroscience – Cognitive Robotics: Psychology

MSc Digital Entrepreneurship: EECE

MSc Financial Engineering: Mathematics

MSc Mathematics & Computation in Biology & Medicine: Mathematics
