

## Individual Study Module 2004/5

Extract from module outcomes:

*On completion of this module, the student should be able to:*

- Demonstrate detailed understanding of a topic in Computer Science.  
**Assessed by:** Report, Presentation
- Solve problems or engage in critical analysis of problems or issues related to a topic in Computer Science  
**Assessed by:** Report, Presentation
- Give a presentation on a topic in Computer Science appropriate to an academic audience  
**Assessed by:** Presentation
- Write a report on a topic in Computer Science in the appropriate style for an academic audience.  
**Assessed by:** Report

You will be expected to give a 20 minute presentation (with 5 minutes for questions) on your topic of study, towards the end of the first semester. The presentation will be to a small audience to include your project supervisor, the module leader and any other members of the School who are interested.

Additionally you are required to submit a report at the end of the first semester.

The talk and report will be marked according to the attached guidelines. They will be marked by your supervisor.

The talk will be worth 40% of the total mark and the report 60%.
